

VOLUNTARY RECALL NOTICE

IMPORTANT NOTICE: voluntary recall of ZEFAL bicycle bottles for children

ZEFAL SA ("ZEFAL") has identified that certain ZEFAL bicycle bottles for children do not always meet ZEFAL's high quality and safety standards. Tests show that in rare cases the push-pull valve of the cap may detach too easily.

HAZARD : There is a choking hazard in case the push-pull valve would detach while drinking. However, to date, we are not aware of any incidents or detaching valves. Nevertheless, since the affected bottles were specifically designed for children, in an abundance of caution we have decided to voluntarily undertake a recall of the affected bottles.

RECALLED PRODUCTS: The affected bottles have been sold between **January 2017** and **January 2022** in a variety of prints and colors. All affected models are branded "ZEFAL" on the bottom of the bottle and are clearly recognizable as children bottle, with a height of only 158mm and a filling capacity of 350ml.

Examples of the ZEFAL bottle (other prints and colors are possible):

Picture of the bottom of the bottle (other colors are possible) :

If the two numbers close to the arrow are : 17, 18, 19, 20 or 21,
your bottle is affected by this recall.
For example :

REFUND : If you are in the possession of this bottle, you should stop using it and contact ZEFAL to arrange a full refund at www.zefal.com/en/cms/67/LittleZ_Recall
